INDUSTRY

Financial Services

RESULTS

The relocation was successfully delivered within the agreed timescales, providing DR&P Group with a modern, secure and fully connected workspace. Employees were able to settle into the new office quickly, with the infrastructure and support needed to continue working from day one.

KEY PRODUCT

DR&P relies on us to support its entire technology estate across approximately 35–40 locations. With an established relationship already in place, DR&P trusted MCS Group to manage every aspect of the IT relocation to its new headquarters.

FEEDBACK

"MCS helped enormously on our office move which enabled us to minimise any down-time. They helped us with the IT infrastructure and to plan ahead and also reacted quickly whenever needed. Thank you MCS."

CHALLENGE

DR&P Group required a trusted IT partner to manage the complete technology aspect of its office relocation.

DAVID ROBERTS &PARTNERS GROUP

DR&P'S STORY

Founded in 1977, David Roberts & Partners (DR&P Group) is one of the UK's leading independent insurance brokers. With more than 550 colleagues across 34 UK offices and five international locations, DR&P provides tailored insurance and risk management solutions to businesses of all sizes.

"Chancery House served the business well for two decades, and while the location holds many great memories, the new office provides a significantly enhanced environment for colleagues and visitors alike."

Paul Brookbanks | Managing Director

THE CHALLENGE

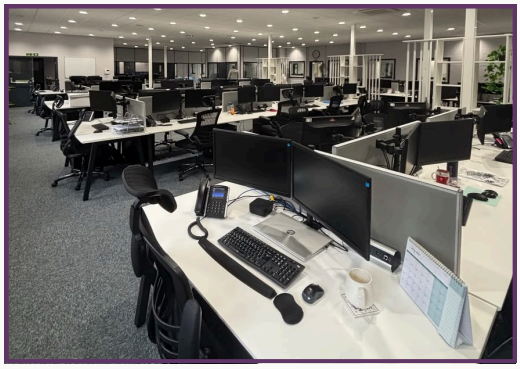
- More than 50 employees required new workstations to be installed and configured within a three-week project timeline.
- The deployment of three fully equipped meeting rooms complete with wall-mounted displays and video conferencing technology.
- Ensure every employee could begin working immediately in the new office.
- Minimise disruption to business operations throughout the move.

DR&P's New Southport Office

The successful office move delivered a modern, fully connected working environment while ensuring business operations continued with minimal interruption.

THE SOLUTION

- Complete network infrastructure, including business broadband, Wi-Fi deployment and a SonicWall firewall to provide secure connectivity throughout the new premises.
- All network cabling was correctly patched and tested, equipment was fully configured before staff arrived, and engineers remained onsite to resolve any teething issues immediately.
- Multiple engineers onsite throughout the move to support users and resolve any issues immediately.
- Assisted employees in settling into their new workspaces, ensuring every device was operational and ready for use.



THE RESULTS

Business Ready from Day One

Every workstation, meeting room and network connection was fully configured, allowing employees to begin working immediately in their new office.

Minimal Business Disruption

Detailed planning and onsite engineering support helped ensure the relocation was completed smoothly within a tight three-week project timescale.

Complete IT Infrastructure Delivered

From broadband and Wi-Fi to telephony, network security and meeting room technology, every element of the IT environment was delivered.

Improved Collaboration

Three new meeting rooms equipped with modern conferencing technology have created better spaces for internal collaboration and client meetings.

Secure & Reliable Connectivity

A new network, business broadband, Wi-Fi infrastructure and SonicWall firewall provided secure, high-performance connectivity across the office from day one.

A Trusted Technology Partner

Having supported DR&P Group for over six years, MCS Group was able to deliver the relocation providing the expertise and reassurance needed for a successful transition.
