

ALDRIDGE
MINERALS INC.

Managed IT Services Case Study

mbc
MANAGED IT SERVICES

“MBC really prioritizes customer satisfaction, the technicians worked very hard to make sure we were ready for our launch date.”

- Jim O’Neill, CFO, Aldridge Minerals

Our Client

Aldridge Minerals went through an exhaustive evaluation process to select their new IT Service provider. By combining the industry-leading Managed IT Service model from MBC with the engineering, land acquisition and project financing expertise from Aldridge Minerals - they are poised to continue growing its reputation as the leading development stage mining company.

*Does this
sounds familiar*

The Challenge

Following corporate restructuring Aldridge Minerals temporarily relied on shared executive suite services while expanding their management team in Toronto. As business operations scaled out a fully functional centralized office was required to support their global mining projects.

The management team determined an investment into infrastructure and services was needed, and a partner was required to assist with the planning and implementation of a new IT strategy. A search was executed for a Managed IT Services provider that could help Aldridge build out a new base of operations.

The Solution

Aldridge Minerals established a Managed IT Services agreement with MBC Managed IT Services to provide:

Full Suite of Services Accessible Globally 24/7

Guaranteed Response Times

Business Continuity Planning

5 Year IT Life Cycle Strategy

“
”

*“WE CAN FOCUS ON GROWING OUR BUSINESS BECAUSE WE KNOW MBC IS FOCUSED ON DELIVERING THE SERVICES AND SOLUTIONS WE NEED”
- JIM O’NEILL*

The Results

Aldridge Minerals relies on MBC Managed IT Services for a comprehensive set of services at significantly less cost than that of hiring a full-time professional.

Immediate Savings and a Delightful experience!

MBC also provides strategic guidance at a fraction of the cost of expensive IT management consultants.

Proactive monitoring and management have been critical to operations; delivered remotely, with onsite dispatch support from the MBC Toronto office for any activity requiring an onsite presence.

About Aldridge Minerals

Aldridge is a development stage mining company focused on its wholly owned Yenipazar polymetallic VMS Project (Au, Ag, Cu, Pb, Zn) in Turkey (the “Project”), a country that is committed to developing its natural resources.

THEIR DOMAIN

Aldridge completed the Yenipazar Optimization Study and filed the related NI 43-101 compliant technical report in May 2014, which updated the original May 2013 Feasibility Study. The Company is currently advancing the Project on

THEIR PROJECTS

Aldridge’s mineral properties are located in Turkey.

Our core values, Knowledge, Responsiveness, and Honesty, serve as fundamental beliefs that dictate our behavior, actions and are aligned around customer requirements so that we continually anticipate, meet and exceed client expectations in a delightful way.

Why MBC?

We take IT Services to the next level by guaranteeing customer satisfaction and providing solutions tailored around cybersecurity & strategic consulting.

Our clients benefit from our IT Lifecycle program, a framework that aligns IT needs with business growth while ensuring up-to-date IT infrastructure and leveraging both public and private Cloud.
