

Andromeda Helps Manufacturer Secure Network, Migrate To Microsoft 365 & Reduce Risk of Phishing

This manufacturer can now share information easily and work more efficiently.

This manufacturer of safety products in Downers Grove, Illinois was struggling with a clear path to upgrade technology.

After several incidents of phishing emails, they needed guidance and a plan to manage their network security and IT.

Now, this manufacturer has the software, anti-virus protection and network infrastructure in place to keep them secure. The analytics that Andromeda provides is essential.

Andromeda Technology Solutions provides us with great service for an affordable price.

The team is patient, knowledgeable, and always willing to do the job.

IT Manager
Safety Product Manufacturer, Downers Grove, IL

They meet deadlines and stay within budget.

I've been impressed with their knowledge and patience.

IT Manager,
Safety Products
Manufacturer

The Challenge:

This manufacturer hired Andromeda Technology Solutions for consulting services and advice for overhauling and upgrading technologies in their infrastructure.

- They needed Microsoft 365 rolled out to all systems
- Phishing and anti-virus needed to be addressed
- Network infrastructure needed securing

The Action:

After a consultation and complete understanding of this manufacturer's network and technology, Andromeda worked with them to roll-out a security plan:

- Implemented Microsoft 365
- Secured data with anti-virus software
- Provided software and analytics for visibility
