

Andromeda Goes Above And Beyond With Migration and Integration

This manufacturer improved productivity with implementation of SharePoint.

This manufacturer of textile ingredient was struggling with the migration from Google Drive to SharePoint and integration of Office 365.

Andromeda was able to step in and understand the progress after taking over from a previous company.

They completed a new plan for migration and implemented it with efficiency.

Andromeda has migrated our data without issues, and user accounts have been up and running.

Overall, we've had a seamless transition from one environment to another.
