Digital Workplace Transformation

Cameco's Vision for a Digital Work Experience

"In my digital future, my workplace experience is accessible from anywhere while remaining secure. It allows me to share my work easily and find work shared with me by colleagues without wasting time. I can easily collaborate with colleagues in one place and I can remain informed without trying to remember which email it was that last discussed a topic.

My smart phone or tablet is an extension of my office workplace.

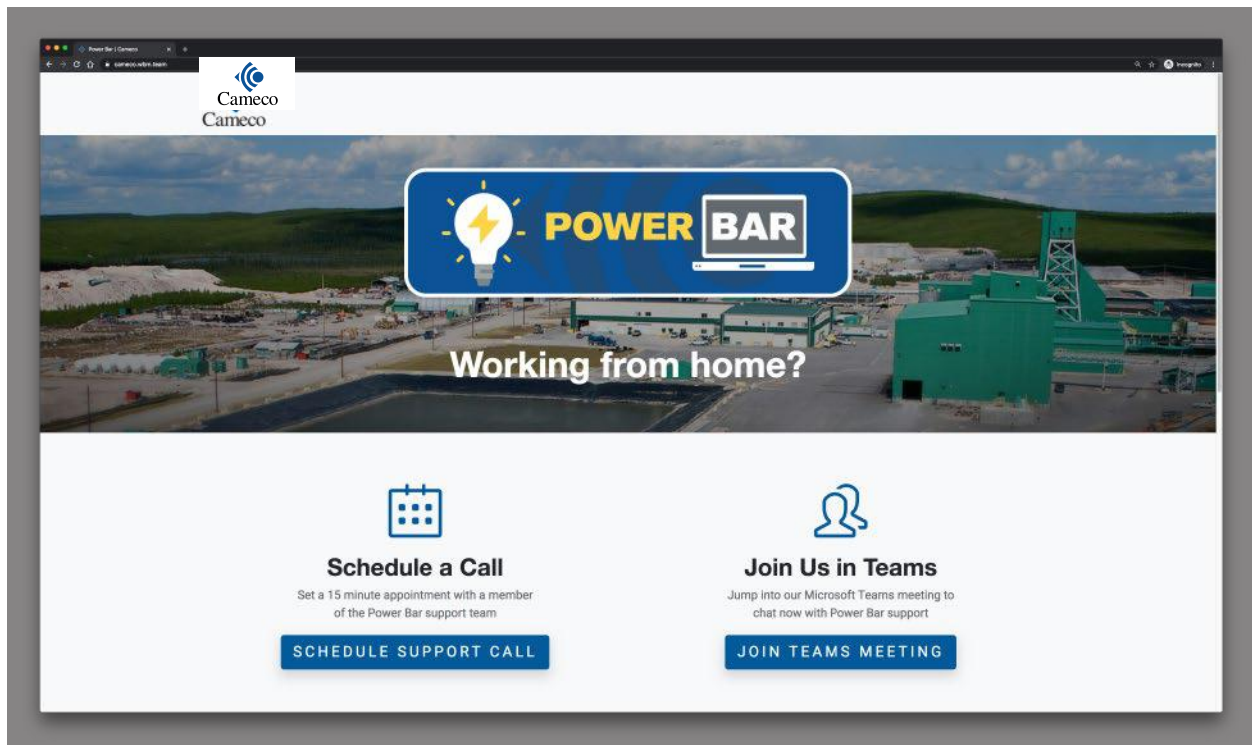

When I collaborate on a document my colleagues are notified, can see my edits, and they can easily share their thoughts in turn. When we are done with our work, I can easily classify our documents as appropriate for proper retention and discovery.

In short, in my digital future I have the tools to continually eliminate waste by leveraging modern and ever evolving capabilities."

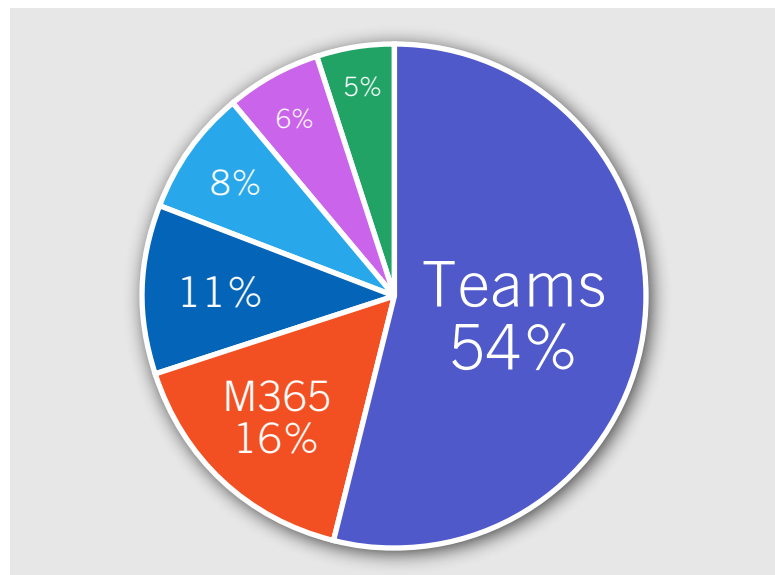

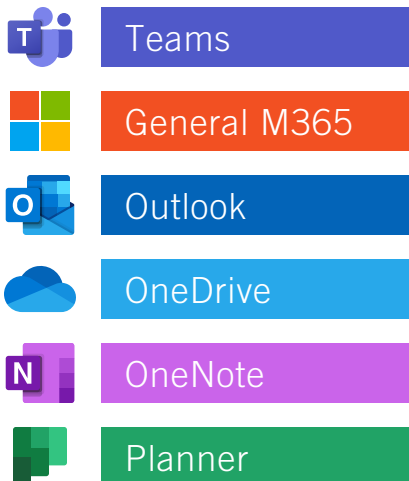

Cameco Business Technology Services is fueling this vision through Microsoft 365 platform enablement and leading-edge employee adoption and support innovations.

The Cameco Power Bar

The Cameco Power Bar launched in the summer of 2020 as a brand-new way to expand employee support and help proliferate the adoption of Modern Workplace tools. It provides one-click access for all Cameco employees to receive live or scheduled workplace transformation support from a WBM Technology Experience & Enablement professional.

Q&A BY APPLICATION

Global Access to Live Support

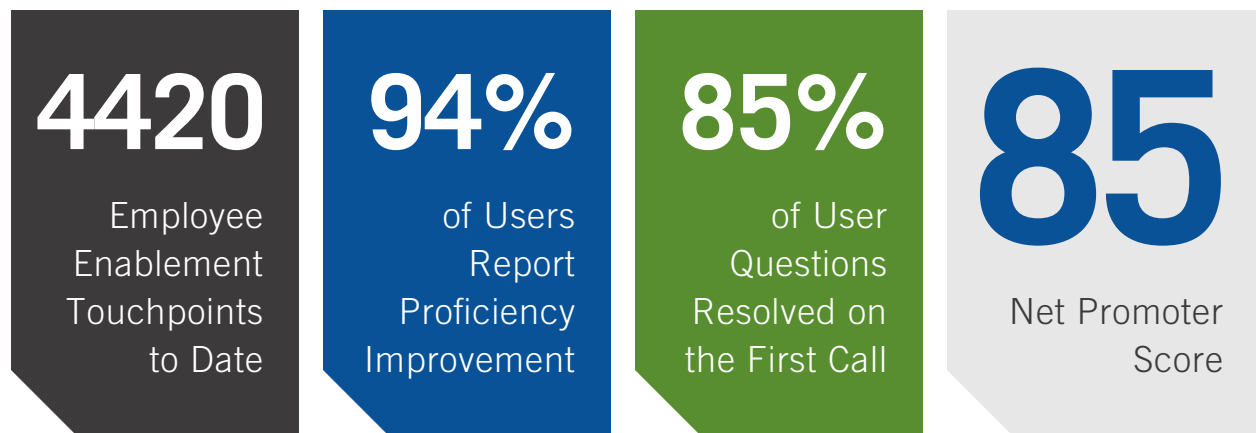

Employees at any one of our 19 worldwide locations can join a live Microsoft Teams session for quick, friendly, and knowledgeable assistance with questions relating to Microsoft 365.

Employee productivity and efficiency are enhanced with issue resolution, but also from workflow improvements suggested by the Power Bar team.

When solutions are applicable for other users at Cameco, they are proactively distributed through effective communications and training.

IMPACT OF ENHANCED SUPPORT

A World Class End User Experience

The Power Bar solution was rapidly adopted to near universal praise. It is empowering our team and making work easier.

"Was quick and fast and I did not have to wait for someone to search for me, connect to my machine, etc..."

Stephen C. – Cameco

"As a trainer, I am in 100% in support of this 'on demand', 'just in time', 'moment of need' availability of a resource. You get what you need, and quickly move on the task at hand. I recommend the availability of this resource to anyone new I am working with on Teams."

Joey L. – Cameco

"It was great having someone knowledgeable instantly answer my question. I also learned several other things about Office 365. Thank You!"

Anna T. – Cameco

"I love the convenience of 'dropping in' for support when it suits my schedule. Thanks for your help!"

Karen C. – Cameco

"Response is super quick. This is a great way to address 0365 head-scratchers on the spot as they happen."

Sue B. – Cameco

"This was an awesome experience and the problem I was having is now solved!"

Robert H. – Cameco

"To be able to ask a relatively simple question and get an immediate answer is invaluable. I could have saved myself about 15 minutes of online search time had I simply gone to the Power Bar first."

Debbie E. – Cameco

"Easy method of help and very quick. Definitely helps with quick on the fly requests."

Kirk L. – Cameco

Real-time Employee Enablement

Success stories are shared across the organization to inspire adoption, demonstrate real use case scenarios, and promote the Power Bar service.

CAMECO HOSTS MICROSOFT TEAMS LIVE EVENT FOR NORTHERN STAKEHOLDERS

Our manager of community & indigenous engagement, Kristin Cuddington, recently encountered a unique challenge. Traditionally, Cameco hosts a public meeting in Uranium City for decommissioned Beaverlodge properties. Due to COVID-19, it became clear that an in-person meeting was not an option this year.

Hosting the meeting on the Microsoft Teams live event platform emerged as the best solution and Kristin reached out to our Power Bar for support. She received pre-meeting guidance, useful tips, and help with her trial runs. The result: all stakeholders were able to connect in a virtual setting and the meeting was a great success!

Like Kristin, if you have any questions about how our technologies can help you work better, smarter, or faster, click the link below for solutions and advice!

cameco.wbm.team

"We had never done this type of activity virtually. After reaching out to BTS and the Power Bar, we settled on a Live Event. It was important that participants felt connected to the presenters and the material. Thanks to help from the Power Bar, the event ran like a well-oiled machine."

KRISTIN CUDDINGTON

Manager, Community & Indigenous Engagement, Cameco

CAMECO POWER BAR HELPS STREAMLINE COLLABORATION FOR HAILEE'S TEAM!

Hailee Toffan, Supervisor of Support Systems at Cameco, wanted her team to be able to share information and have group access to a shared platform account without everyone using a single person's email address to log in. The team's first instinct was to use a shared Outlook inbox, but Hailee contacted the Cameco Power Bar to see if there was a better way.

The Power Bar sprang into action. They confirmed that Hailee's team could use a general email address associated with their Microsoft Team, and now everyone has easy access to group information and their shared platform account.

Like Hailee, if you have any questions about how our technologies can help you work better, smarter, or faster, click the link below for fast and friendly solutions and advice!

cameco.wbm.team

"There is no need to be worried about someone leaving the company and us not being able to use their email address. Any communications related to our account now go directly to our Team inbox. There is no administration needed now to add or remove members as they come on board or leave the Team!"

HAILEE TOFFAN

Supervisor, Support Services, Cameco

Proactive Support for the Cameco Team

ON-DEMAND LEARNING

While resolving end user questions and issues, we gain insight. Proactively, resources are created to answer common questions and to promote the adoption of more efficient ways of working. These are tangible self-help options that supplement our live support model and are available on-demand as learning assets, or as part of customized training skill paths in our Brainstorm software adoption platform.

USER FEEDBACK

*"This was an excellent workshop!
Great presentation skills and good
pace. Thank you."*

Karen C. – Cameco

*"It was done very well, not sure what
they could do better!"*

Cameco Team Member

*"I have found all the Power Bar
sessions to be very informative and
well instructed. It is nice to know there
is someone there to answer my
questions in real time. Much more
efficient! - Thank you."*

Cameco Team Member

*"Not sure there is more that could
be done to make it 10/10. It was
informative and stayed on topic. After
people have an opportunity to play
around in Teams it would be good for
people to take this training, or more
advanced training to understand the
full functionality. It is a bit
overwhelming at the beginning."*

DIGITAL TRANSFORMATION

With a modern workplace adoption program in place, staff have the resources and support they need to transform how they work. Their comfort level with digital technologies is proliferating their use and accelerating the achievement of Cameco's vision.

The Next Wave of Value

With the success of this program, we are continually looking for ways to expand and evolve it.

- The Power Bar now includes ‘how to’ assistance for questions with ServiceNow.
- A customized Power App is giving our staff one-click access to the Power Bar without leaving Microsoft Teams.

Cameco is going beyond the mere implementation of digital tools - we are adopting them and leveraging their modern and evolving capabilities. Our modern workplace adoption program is essential to the work experience at Cameco, and it will continue drive us towards our vision of a digital future.

NEW CUSTOM TEAMS APPLICATION USER ENGAGEMENT

“This level of technical support is unlike anything I have ever experienced in more than 20 years working at Cameco. Well done!”

Mike W. – Cameco

ABOUT CAMECO

Cameco is one of the largest global providers of the fuel needed to energize a clean-air world.

Our tier-one operations have the licensed capacity to produce more than 53 million pounds (100% basis) of uranium concentrates annually, backed by 461 million pounds of proven and probable mineral reserves (our share). We are also a leading supplier of uranium refining, conversion and fuel manufacturing services. Our land holdings, including exploration, span about 1.7 million acres of land, the majority near our existing Canadian operations.

Utilities around the world rely on our nuclear fuel products to generate power in safe, reliable, carbon-free nuclear reactors. Together, we are meeting the ever-increasing demand for clean baseload electricity while delivering safe, reliable solutions to today's clean-air crisis.

ABOUT WBM TECHNOLOGIES

WBM Technologies (WBM) is a Western Canadian leader in the provision of outcomes-driven information technology solutions. WBM provides business solutions through 4 core practice areas: Data & Security, End User Computing, Managed Print Solutions, and Enterprise Service Desk. Established May 1, 1950, WBM operates from Infrastructure Operation Centers located in Vancouver, Calgary, Regina, Saskatoon, and Winnipeg. We employ a team of nearly 400 IT professionals across Canada who are motivated to make a difference with our clients through the results we achieve together.
