

GLOBAL SOC SERVICES

Protecting and controlling IP, sensitive data, endpoint protection, and mobile security

PROJECT OVERVIEW

Our client Consultech, (founded in 2014) is a leading supplier of turnkey industrial solutions and services. In 2023, Consultech requested the support of Safetech Innovations to help them better protect their global operation with the provision of Safetech's leading cyber security services. Our total services for Consultech include but is not limited to:

- ✔ SOC Services
- ✔ Phishing Training & Awareness
- ✔ Mobile Security
- ✔ Endpoint Security
- ✔ Penetration Testing

As a global MSSP, Safetech Innovations continues to support Consultech providing them with 360-degree protection of their sensitive data, globally. As part of our ongoing cyber security support, we have implemented the running of phishing training and awareness programs helping their staff in developing continuous awareness and understanding of sophisticated phishing attacks. We are also providing a penetration test in 2024, as part of their new web development project. We are also pleased to be providing Consultech with mobile device application security, in partnership with Zimperium.

BUSINESS OUTCOMES

Consultech experienced an immediate enhancement in their cyber security coverage company-wide, addressing previously identified vulnerabilities in their infrastructure. Through the implementation of Safetech's sophisticated endpoint protection, SOC services, phishing awareness training, and additional penetration testing, Consultech is confident in their improved security measures, effectively safeguarding their data and critical infrastructure.

VENDOR SUPPORT

Consultech has undergone a transformative security enhancement throughout our global business, thanks to the expertise of Safetech. Safetech has not only significantly strengthened our security defences, protecting us from advanced threats but has also fostered a heightened sense of awareness and vigilance within our organisation. This is particularly evident in our enhanced preparedness against phishing attacks and social engineering tactics. Safetech has emerged as our trusted and reliable long-term partner in cybersecurity.

Cristian Papaianopol | CEO, Consultech
