

centrexIT minimizes IT problems and refreshes aging equipment at this nonprofit.

AFFORDABLE HOUSING

Our partnership with MAAC started with a shared commitment of maximizing self-sufficiency with families and individuals through high-quality programs and advocacy in our communities.

MAAC has developed nearly 1,000 affordable housing units throughout San Diego County, which is a direct reflection of its passion to help individuals and families create the lives they want and deserve as one remarkable example of their pathways of service.

The centrexIT team recognizes the criticality of MAAC's unwavering commitment to providing affordable housing in San Diego County. centrexIT ensures MAAC's IT infrastructure is current and scalable, while also implements cybersecurity best practices. These efforts not only help support the communities we jointly serve, but they also protect their sensitive information from potential harm.

CHILD DEVELOPMENT

Recognizing that early education is a cornerstone for future success, MAAC's programs in child development are pivotal in shaping the lives of children in our communities. centrexIT provides advanced IT solutions that enhance MAAC's ability to deliver exceptional child development services.

From ensuring seamless communication systems to safeguarding sensitive educational data, our focus is on creating a technological environment that supports MAAC's mission. By aligning our IT expertise with MAAC's educational goals, centrexIT strives to contribute to the nurturing and development of young minds, laying a strong foundation for their future achievements.
