“Our procurement process has been significantly enhanced by Virtuelle’s procurement platform. Their proactive approach and seamless implementation have significantly improved our efficiency and cost savings.”

— Brook Thomas, General Manager Technology, McColls Transport

THE CHALLENGE

Inefficient Procurement Holding Growth Back

McColls Transport needed to completely overhaul their procurement process for Microsoft 365 licensing and hardware. Their existing processes were creating operational inefficiencies and driving up costs — holding back a growing logistics business that needed agility and control.

Operational Inefficiency

Existing procurement partners and manual processes were creating bottlenecks, slowing down licensing and hardware

Rising Costs

Lack of visibility into spend patterns and licence utilisation was driving up costs with no easy way to optimise.

No Licence Oversight

Without automated expiry tracking, licence renewals were missed or last-minute, creating risk and unnecessary
