

# Nemes Rush Family Wealth Management Thrives with Visory's Comprehensive IT Solutions

**AUM:** .....\$1B  
**Total Accounts:**.....2,457  
**Employees:**.....7

Nemes Rush Family Wealth Management delivers wealth management services for a select number of clients, from financial planning and investment management to insurance capabilities and more.

Our team is comprised of advisors with distinguished professional backgrounds, having built their reputations as CPAs, CFPs and attorneys. This rich experience gives us an in-depth understanding of all things financial. Our professional backgrounds and problem-solving ability allow us to proactively collaborate with each client's CPA and estate planning attorney.

*We started from scratch, at ground zero. We had no technology, no computers, just an empty office. We stood up our firm on Friday, and Visory came onsite. By the time they were done, we were set up with computers, laptops, desktops, firewall ... we were up and good to go by Saturday afternoon.*

Partner and Co-Founder

## Overview

Upon its establishment in 2021, Nemes Rush faced the initial hurdle of setting up offices from scratch, particularly addressing the technology aspect encompassing laptops, desktops, printers, firewalls, and more. Following an extensive vendor search and due diligence, Visory emerged as the optimal choice.

Tim Rush, partner, said, ***“The local firms we considered did not have a lot of experience with RIAs, which was important to us. At the end of the day, we chose Visory. Communication with Visory is excellent. We are never left hanging.”***

Visory swiftly executed the technology setup. The procurement of equipment, installation of software, and addressing all other setup issues were accomplished with precision. The firm's technology was fully operational by Saturday evening, two days ahead of schedule.

# Nemes Rush Family Wealth Management Thrives with Visory's Comprehensive IT Solutions

## The Solution

- ☀ Full managed IT services
- ☀ Secure WorkPlace®

## Secure WorkPlace

A multi-layered, systematic and comprehensive approach to securing your firm
