CHALLENGES

Epassi UK faced several IT and operational hurdles during their move to a larger, consolidated office space.

- **Relocating IT infrastructure** from two separate offices into one unified environment without interrupting operations.
- **Ensuring minimal downtime** during the transition for 50 staff.
- **Upgrading meeting-room video conferencing** to support modern hybrid working.
- **Rebuilding core network infrastructure**, including Wi-Fi and connectivity to suit the new office layout and capacity
- **Maintaining business continuity and avoiding disruption to clients** who rely on Epassi UK's wellbeing services.

SOLUTIONS

- **Leveraged AJT's long-standing relationship & deep understanding** of Epassi UK's systems to plan the move efficiently
- **Managed entire IT relocation end-to-end**, from equipment moves to workstation rebuilds, keeping downtime to a minimum
- **Designed & installed upgraded video conferencing systems** across all meeting rooms.
- **Built a brand new network infrastructure**, including Wi-Fi and a high speed leased line, tailored to the layout, size and needs of the new workspace while ensuring continuity through the move.
