SALES@GEKO.CLOUD**

Speak to us for a non-binding  
meeting and initial consultation.

# ABOUT THE PROJECT

## What is Venca?

Venca is the leading fashion company in distance selling in Spain. Its more than 40 years of experience have made it an expert company. Venca is currently a **marketplace**, with its own collection, where you can find everything you need for your daily life and also for special occasions.

## How could Geko help Venca?

- To **leave old processes** behind
- Move towards **new technologies** that guarantee scalability
- Taking part of its infrastructure to the **cloud**

Venca is made up of a large and complex infrastructure composed of many services, among which it stores and serves all the images of its products, this storage is growing, which makes backup and operations a complex issue.

# ABOUT THE RESULTS

## Improvements experienced:

- Migration of the imaging service and other services to **Azure**.
- Improvements in terms of **monitoring** and alerting.
- **24x7** service to solve eergencies in less than 1 hour.
- **Infrastructure** for the migration of its new eCommerce technology.
- **Testing** of web performance, simulating requests and checking the response of the infrastructure in terms of memory, calculation processes, speed of response time and data traffic.
