# CMP Solutions

Professional Services | Hertfordshire

Transforming data security and efficiency for CMP Solutions with streamlined SharePoint access.

## The Challenge

CMP Solutions needed to simplify their data permissions structure and improve security across their company data. The existing setup made onboarding and offboarding staff members complex and time-consuming.

## Our Solution

We implemented a streamlined SharePoint access system with simplified permissions, along with a comprehensive security review of all company data. This included restructuring their data architecture and implementing best practices for access control.

## Key Benefits

- Simplified permissions structure for company data
- Simplified onboarding/offboarding process for staff members
- Enhanced security review on company data

## Results Achieved

- Reduced onboarding time by 60%
- Improved data security posture
- Streamlined permission management

*"Working with the team was a seamless experience from start to finish. The Project Manager and Project Engineer were professional, responsive, and kept us informed at every stage. The project was delivered exactly as promised, streamlining our permissions structure and making onboarding and offboarding much simpler."*

**Leanne Holt, Chief Operating Officer**
